Ladies and Gentlemen,

the Soehnle brand is by far the **No. 1* for kitchen and personal scales in Germany** and is one of the leading suppliers in Europe. We were able to further expand our top market position in Germany in the first half of 2021. At the same time, our sales of Soehnle products grew by almost 34 per cent in 2020 and by over 20 per cent in the first half of 2021. You have made this impressive success possible in your shops - for this we send you our heartfelt thanks!

Successful together with high-quality Soehnle bestsellers

Soehnle's success is based on a concise and coherent range of high-quality, multi-award-winning bestseller products combined with our promotional activities for the brand, which we have significantly strengthened.

We had great success with our large-scale print campaign in Germany in the second half of 2020. The campaign focused on the **Soehnle Page Profi 300 kitchen scale**, which was rated „very good" by the magazine „Haus & Garten Test" and features intelligent 4-sensor technology for precise weighing results and a load capacity of up to 20 kg.

The focus of our TV campaign in the first half of 2021 in Germany and Austria was the **Soehnle bathroom scale Style Sense Safe 300** - Germany's best-selling stainless steel scale*. With its 4-sensor weighing technology, illuminated XXL display and high-quality stainless steel surface, it not only received the grade „very good" from „Haus & Garten Test" but also the renowned „Plus X Award" for high quality, design and ease of use.

At the same time, our Soehnle air purifiers are in high demand, such as the **Soehnle Airfresh Clean 400**, which was awarded test winner by „Haus & Garten Test" and removes 99.95 per cent* of particles such as allergens, viruses and pollutants through a powerful four-stage cleaning system, Hepa filter and UV-C light when filtering. Thus, especially in times of the COVID 19 pandemic, it makes a significant contribution to well-being in one's own home.

As for the Leifheit brand, we are consistently continuing our advertising campaign for our high-quality bestseller products of the Soehnle brand. Our massive investments in consumer advertising in selected markets are supported by targeted online and offline advertising measures as well as customised POS presentation concepts. You, our trade partners, benefit from our fast-growing brands and excellent products. What this means for you: Higher profit and more satisfied consumers!

With us, you have a strong and reliable partner at your side - with well-known German brands, with high-quality and multiple award-winning products and with effective consumer promotion. Let us continue to grow together in the future!

Henner Rinsche
Chairman of the Board of Management
of Leifheit AG

** Tested by the Institute of Fluid Mechanics and Aerodynamics at Universität der Bundeswehr, Munich; with aerosol particles (ø 0.4 µm) in a room with around 60 m^3 at power level 4.

Passion for Precision

For over 150 years

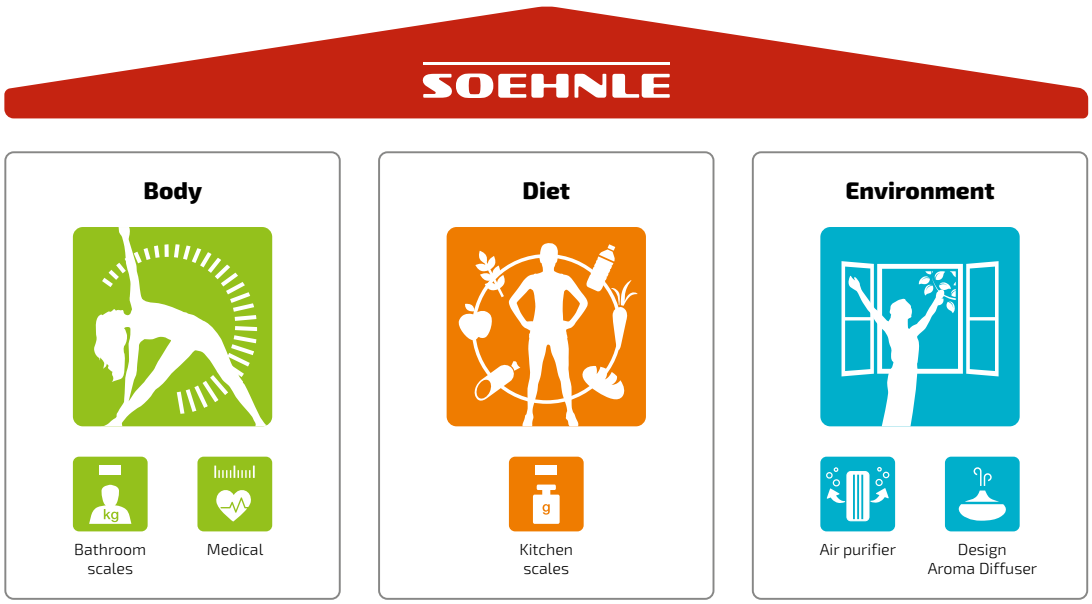
Ever since it was founded by the Swabian entrepreneur Wilhelm Soehnle in 1868, the Soehnle brand has become synonymous with precision, ease of use, innovative technology, first-class quality and exceptional design. 150 years on, Soehnle has become a leading supplier of bathroom and kitchen scales.

We're experts in precision measurement, weighing and analysis. And this is what our brand stands for. And that is our passion - day after day. This isn't just with our scales, but our competence is embedded in our new product areas such as Air Treatment, Blood Pressure Monitors and the innovative Soehnle Connect app. We're using our brand expertise to help people stay fit and consciously live a healthier lifestyle.

With a powerful brand and excellent product quality Soehnle creates attractive sales potential and remains a reliable top partner for the retail trade.

One brand - three key competences

Soehnle develops reliable innovative product solutions for the body, nutrition and environment, for the calculation, display and analysis of numerical information.



To be the better one in competition

The Soehnle shelf systems offer your customers not only a better way of browsing, but also a new brand experience. Products can be tested immediately and product benefits can be experienced directly.

Order numbers and other information about the POS tools are available in the POS-Excellence catalogue.
